QUAYLE ACTION

Election/Restrictions

Applicant's provisional election of Species A in the reply filed on December 29, 2005 is acknowledged, however upon further review by the Examiner, the restriction requirement contained in the Office action mailed December 15, 2005 is vacated by the Examiner. The Examiner acknowledges that claim 1 is generic and allowable as well as and any dependent claims.

Specification

I) The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT
- (e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC (See 37 CFR 1.52(e)(5) and MPEP 608.05. Computer program listings (37 CFR 1.96(c)), "Sequence Listings" (37 CFR 1.821(c)), and tables having more than 50 pages of text are permitted to be submitted on compact discs.) or
REFERENCE TO A "MICROFICHE APPENDIX" (See MPEP § 608.05(a). "Microfiche Appendices" were accepted by the Office until March 1, 2001.)
- (f) BACKGROUND OF THE INVENTION.
 - (1) Field of the Invention.
 - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (g) BRIEF SUMMARY OF THE INVENTION.
- (h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).

- (i) DETAILED DESCRIPTION OF THE INVENTION.
- (j) CLAIM OR CLAIMS (commencing on a separate sheet).
- (k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
- (l) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

Applicant is requested to include applicable headers.

- II) The disclosure is objected to because of the following minor informalities: It is not clear if page 24 (original specification in German) has been cancelled or remains to be translated and added to the current English version specification.

Appropriate correction is required.

Claim Objections

Claims 10 – 16 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n).

Allowable Subject Matter

Claims 1 – 9 are allowed.

Claims 10 – 16 would be allowable if rewritten to overcome the claim objections, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance:

Jean-Frederic shows a four port coplanar coupler (Fig. 4) further comprising adjacent ground planes but does not show, teach or suggest a termination (e.g. directional coupler) or changes in spacing between the longitudinal center conductors.

Tsai shows an interdigitated "Lange" coupler but also does not show, teach or suggest a termination (e.g. directional coupler) or ground conductors bordering the outside of each center conductor where the ground plane of Tsai is located on the bottom of the substrate, nor would it be obvious to combine the prior art of record thus the claims are allowable.

Claims 10 – 16 would be allowable if rewritten to overcome the claim objections, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Perak shows a three port divider.

This application is in condition for allowance except for the following formal matters: directed to objections to the specification (headers) and claims (improper multiple dependent claims 10-16).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
